Tips for Watching Olin Livestream Events

Here are a few tips to improve your experience:

1. Test your system **before** the livestream event. A high-speed Internet connection is recommended for optimal viewing.

   ✓ **Test your System**
   Once on the page, click the blue button to view/hear the test video:
   Test your audio and video connection

2. To view the event full-screen, click the “Pop Out” button, as shown below:

3. If you experience audio/video problems, try refreshing your browser. Hit the F5 key on a PC or Command+R on a Mac (or click the “reload” or refresh button on your browser).

4. If desired, swap video windows by hovering over the larger video and clicking on the “Change primary content” button, as shown below:

5. Still can’t get the video to work? E-mail the support contact linked beneath the embedded video.
