MBA/Undergraduate Engineering 3/2 Program

The Three-Two (3/2) Engineering/MBA program allows undergraduate engineering students to earn an undergraduate engineering degree as well as the MBA degree in a total of five years. The following grid outlines the program structure and details regarding per-semester enrollment, tuition, financial aid, Webstac and grading systems. The degree requires a total of 66 units. Fifteen (15) units are applied from the engineering program; the remaining 51 are comprised of 27 MBA core/required units and 24 MBA electives. Section IV of the Conditions of Enrollment and “Frequently Asked Questions” are included on page 2.

Conditions of Enrollment

SECTION IV

Conditions apply to 3/2 candidates only.

1. The full-time MBA degree program requires completion of a minimum of 66 semester-credits. These credits must be composed as follows:
   • **3/2 Engineering and Arts & Sciences candidates**: A minimum of 51 credits must be completed in 500-level MBA courses taught by faculty members of the Olin School. The remaining 15 credits will be applied from the 3/2 degree partnering program.
   • **3/2 BSBA candidates**: A minimum of 51 credits must be completed in 500-level MBA courses taught by faculty members of the Olin School. Six (6) upper-level undergraduate credits will apply. The remaining 9 credits may be comprised of:
     o Additional Olin School MBA electives, or
     o Pre-approved Washington University non-business, graduate-level electives taken after the student has begun study as an Olin MBA candidate.

2. Students enrolled in any of the approved 3/2 programs will pay MBA level tuition for each of their 4th and 5th years of study. Any undergraduate scholarship will remain in effect for the 4th year of study only.

Frequently Asked Questions

Q: Do the 15 undergraduate credits that are applied have to be taken during years 4 and/or 5, or can they have been taken prior to entering the 3/2 program (for example, during my junior year)?
A: The 15 credits may have been taken at any time during your studies at Washington University.

Q: My professor told me that I got an “HP” (high pass) grade in his class but I just checked Webstac my grade appears as “P#.” Why don’t I see “HP”?
A: During the first year of the 3/2 program, students remain coded in Webstac according to their undergraduate division. The HP/P/LP/NP grading scheme is not recognized by this undergraduate coding. When the faculty member enters grades into Webstac, his/her only choices for 3/2 students’ grades are “P#,” which stands for “Pass”, or F#, which stands for “Fail.” In the weeks following the submission of grades, the Graduate Business Registrar will work with all professors and manually make any necessary changes of grades to HP, LP or NP. If your grade is “Pass” (P in the MBA HP/P/LP/NP grading scheme), your grade will remain “P#.” In year two/five of the program, 3/2 students are coded in Webstac according to the MBA division and will automatically receive the MBA grades (HP/P/LP/NP.)

Q: I am in year two (my fifth year overall) of the 3/2 program. Since my undergraduate scholarship does not apply to this year, is there a different scholarship for this year?
A: Scholarships for year two (year five overall) are awarded at the time of admission to the 3/2 program. If you were awarded a scholarship at that time, yes, the scholarship will be applied this year. If not, you are not eligible for a new scholarship award for this year.

Q: I will have completed all of my BSBA requirements by the end of year one (year four.) Can I graduate and get my BSBA diploma at the end of year one/four?
A: Yes. Students must file an “Intent to Graduate” form via webstac or at the University Registrar’s Office (lower level, Women’s Building) by the deadline established for the semester in which they wish to graduate.
