Entrepreneurship is about vision, risk and passion. It’s the spirit that permeates the entire school. The entire WashU campus. Which makes Olin the ideal place to launch an entrepreneurial career.

You’ll get the confidence, contacts and know-how to start your own company or social impact venture, take on a leadership role in a startup, work venture capital and private equity, or achieve a corporate innovation role at the largest of organizations.

At Olin, we first learn to fall in love with the problem. And then we teach students how to do something about it—all within the unique ecosystem that WashU, St. Louis and our global alumni network affords.

Concentrations within the MBA entrepreneurship platform include:

- Commercial Entrepreneurship
- Social Entrepreneurship
