Global Master of Finance

GLOBAL PARTNERSHIPS: UNIQUE GLOBAL VIEW

“Olin Business School’s partners are carefully chosen to complement our existing degree programs. Together, we’re building internationally connected networks of students, faculty, industry professionals, and alumni. Students gain valuable insights into distinctly different business environments—the United States and either Singapore or South Korea. The goal of both programs is to provide students with a holistic understanding of the global financial landscape.” —Ohad Kadan, PhD, Academic Director

Our partners:

Olin
Founded in 1917, Olin Business School at Washington University in St. Louis is an institution recognized for its academic scholarship and exceptional faculty and students. It is accredited by the Association to Advance Collegiate Schools of Business (AACSB). In addition, the Financial Times ranks the Master of Science in Finance program at Olin as No. 4 in the United States.

SMU
Singapore Management University (SMU) is one of the youngest universities in the world to have earned a double AACSB (Association to Advance Collegiate Schools of Business) international accreditation for its business and accounting programs. Students receive the best of both worlds by gaining theoretical and empirical knowledge from two finance degrees.

Yonsei
The Yonsei School of Business is renowned as Korea’s first and best business school. It is a premier center of management education with outstanding international recognition for its programs.

IMMERSION COURSES THROUGH THE BROOKINGS INSTITUTION AND EXPERIENCE IN NEW YORK

Whether you choose to pair your Olin curriculum with SMU or Yonsei, your studies will take you to New York and Washington, DC, for immersion courses. The New York courses focus on financial institutions and markets. Courses in Washington, DC are offered in collaboration with Brookings Executive Education, which is a partnership between Olin and Brookings Institution, a nonprofit public policy organization. Brookings Institution’s mission is to conduct high-quality, independent research. Based on that research, it then provides innovative yet practical recommendations that advance three broad goals: strengthen American democracy; foster the economic and social welfare, security, and opportunity of all Americans; and secure a more open, safe, prosperous, and cooperative international system. These courses will explore policymaking, legislative processes, enforcement agencies, and the Federal Reserve. These interactive experiences significantly add to the depth of perspective you receive in this global program.

Two Paths to a Powerful Advantage in the World of Finance

The world of finance is increasingly complicated and constantly changing. To succeed, you have to be a leader who can make decisions. Olin Business School at Washington University in St. Louis offers you two paths to gain dual degrees in our Global Master of Finance (GMF) program. No matter which one you choose, you’ll be on your way to specialized knowledge and training you can implement on the world finance stage. Singapore is a thriving financial hub. Combine your work at Olin with the curriculum offered at Lee Kong Chian School of Business (LKCSB) at Singapore Management University (SMU) to earn a Master of Science in Finance degree from Washington University and a Master of Science in Applied Finance from Singapore Management University.

Or you may choose to gain your global perspective by combining your Olin courses with those offered by Yonsei University located in another financial center, South Korea. Here, you’ll earn a Master of Science in Finance degree from Washington University and a Global MBA from Yonsei University.

Either program allows you to earn both degrees in just 14 months. With both you’ll spend two summers at Olin and study abroad in between where you’ll find yourself in the center of the financial world’s pivotal cities.

Global Preparedness

“The GMF program trains future global finance professionals. The collaboration between leading US and global educational institutions provides students with unique learning experiences, job opportunities, and professional networks that will serve them throughout their careers. The program emphasizes both academic rigor and practical applications, preparing the students for the challenges of modern global finance markets.”

— OHAD KADAN, PHD
Academic Director

"In the wake of the financial crisis, policymakers and regulators, including the Federal Reserve, are engaged in a fundamental reassessment of financial markets, financial institutions, and financial regulation. To thrive in this evolving environment, financial practitioners must have a solid understanding of financial theory and be able to apply best practices. Olin is a great place to obtain the tools and applied knowledge critical to success in the new world of finance."

**YONSEI UNIVERSITY**
Established in 1885, Yonsei University in Seoul, South Korea, is recognized as one of the top business schools in the country. Its Global MBA is ranked first in Korea and fourth in Asia, according to The Economist. Yonsei University’s Global MBA’s prestige reflects its core values of creativity, integrity, and a global perspective.

**CURRICULUM**
Get global insight on today’s constantly evolving business world. Applicants to the GMF program should have taken at least one course each in microeconomics, statistics, and calculus. Foundation courses may be required and will be offered in June for students who have not taken finance or accounting coursework.
