Global Master of Finance Dual Degree | Master of Science in Finance | Master of Science in Supply Chain Management
Master of Accounting | Accelerated Master of Science in Finance Program
There is power in knowledge. It increases your life’s potential and your reputation.

If you are seeking to move your career forward, you can achieve ultimate success through the Specialized Masters Programs (SMP) at Washington University’s Olin Business School.

Olin’s advanced SMP business degrees provide a high return on investment that can have a positive impact on your career and open more doors for growth in your organization. An SMP degree also affords you greater recognition and credibility in your chosen field.

**SPECIALIZED MASTERS PROGRAMS**

- Master of Science in Finance (MSF)
- Master of Accounting (MACC)
- Master of Science in Supply Chain Management (MSSCM)
- Global Master of Finance Dual Degree (GMF)
- Accelerated Master of Science in Finance Program (AMSF)

“A specialized master’s degree is highly concentrated and singular in focus, providing intensive education in one business discipline. Students gain an intellectual foundation in these degree programs and are equipped with a technical tool kit desired by many employers. With a globally focused career center, research-oriented professors, and the highest quality student colleagues, Olin Business School’s Specialized Masters Programs at Washington University in St. Louis provide a premier learning experience focused on building tomorrow’s leaders in business.”

— GREGORY HUTCHINGS
Assistant Dean and Director, Specialized Masters Programs
SPECIALIZED MASTERS STUDENTS

Specialized Masters Programs graduates are in high demand in the United States as well as abroad. Upon completion of a specialized master’s degree from Olin Business School, you will have developed highly targeted skills and expertise required by many top global managers as well as the ability to apply those skills to complex, unstructured business problems.

STUDENT QUOTES

JILLIAN MASUCCI, MSFC 2013
“The curriculum includes strong theoretical classes combined with case studies and realistic examples that allow you to apply that knowledge immediately. The MSF is also a quick way to deepen your knowledge of finance and be one step ahead of your peers.”

BRYAN O’NEAL, MACC 2013
“The highlight of my Olin experience was forming close relationships with fellow students from all over the world. Professors really encourage formal and informal group work, which made the program more fun and also enhanced the amount of knowledge I gained.”

MICHELLE HOERBER, MSFQ 2014
“Prior to Olin, I studied finance and mathematics. Olin’s Master of Science in Finance degree allows me to combine both of these disciplines to help me advance faster in my career.”

PRIYA IYER, MSSCM 2014
“Olin has an international experience that binds together many nationalities and cultures and allows me to learn as much outside of class as I do inside. The Foundation Courses also helped me learn the basics of finance and accounting—two subjects I had never studied before—and prepared me for the more advanced topics in my second semester.”

LUXI LI, GMF 2014
“I wanted a global view of financial markets. These two great universities will give me unique professional and academic experience. Both universities provide strong academic and career resources.”

THOMAS NAPIER, MSFC 2014
“Because I wanted to gain deeper exposure in finance, the curriculum of Olin’s Corporate Finance and Investments track fit my needs exactly. The curriculum is significantly more flexible than many of the other programs I researched.”

WESTON CAREER CENTER (WCC)
The Weston Career Center provides you with valuable resources to help you prepare for your job search while also honing your skills for successful, life-long career management.

- Develop networking techniques
- Learn negotiation strategies
- Refine your interviewing skills
- Sharpen your career trajectory
- Interact with recruiters for potential positions at the annual Meet the Firms event

Students participating in the Global Master of Finance Dual Degree program will have access to career services from their partnering university instead of the Weston Career Center.

PAST COMPANIES FROM THE MEET THE FIRMS EVENT:
As a student, you will receive a highly personalized educational experience as you interact with Olin’s engaged faculty and cutting-edge industry leaders.

NEAL COFFEY, MSFC 2013

“The highlight of the program was the social events, where I met MBAs, alumni, faculty, undergraduates, staff, and industry experts. Networking exposes you to opportunities to which you would not normally have access and proves valuable in the interview process.”

BRIDGET HAN, MACC 2013

“Olin’s MACC program offers a lot of flexibility and depth. The high-level accounting courses provide students with a competitive advantage in accounting-related fields, and the curriculum gives students freedom to choose courses from other disciplines, including finance, logistics, marketing, and management. In my opinion, this flexibility gives Olin a unique niche.”

MARC ASIEDU, MSSCM 2012

“I didn’t want an experience that centered solely on learning formulas and terminology. Rather, I was looking for an environment that would challenge and expand the way I thought about business problems. Having been a part of the Olin community previously, I knew that the high caliber of the faculty, as well as the students, would provide just that.”

REAL-WORLD EXPERIENCE + EXPERIENTIAL LEARNING

Through Olin’s network of corporate business partners and campus resources, students have many opportunities to apply what is learned in the classroom with real-world, practical experience.

Olin’s Center for Experiential Learning (CEL) provides elective courses and unique initiatives for students to work together on teams to solve management challenges. These courses include the CEL Practicum, Investments Praxis, and Taylor Community Consulting Program. In addition, the Skandalaris Center for Entrepreneurial Studies offers cross-campus collaborative learning initiatives in all seven schools of the university, where ideas and people can connect and launch a business.

Olin also has other centers of learning that provide students with opportunities to focus on industry-specific business strategies that impact organizational success. These centers include the Wells Fargo Advisors Center for Finance and Accounting Research (WFA-CFAR), the Boeing Center for Technology, Information, and Manufacturing (BCTIM), and the Center for Research in Economics and Strategy (CRES). Each of these Centers offers students the opportunity to become engaged in ground-breaking research. Faculty work closely with students to facilitate this interaction.
WASHINGTON UNIVERSITY

Founded in 1853, Washington University in St. Louis is an internationally recognized, independent university that plays an integral role in the history and continuing growth of St. Louis. The university founded its business school in 1917 and established an MBA degree program in 1950. The university has more than 12,000 students from all 50 states and more than 120 nations. It also has over 125,000 alumni, more than 18,000 of whom are graduates of Olin Business School, with alumni clubs in 53 cities around the world. Washington University in St. Louis has also been selected to host five presidential or vice presidential debates—more than any other institution.

THE BROOKINGS INSTITUTION–BROOKINGS EXECUTIVE EDUCATION

In 2009, Washington University in St. Louis and The Brookings Institution—an internationally acclaimed public policy research organization in Washington, D.C.—established a partnership that led to joint educational activities involving students and faculty across Washington University, including Olin Business School. Global Master of Finance Dual Degree immersion courses held in Washington, D.C., are offered in collaboration with Brookings Executive Education, part of the Brookings Institution.

ST. LOUIS

With a population of nearly three million, St. Louis is the 18th largest metropolitan region in the United States. There are 19 Fortune 1,000 companies headquartered in St. Louis, 10 of which are Fortune 500 companies. The city is named one of Forbes’ Best Places for Singles based on the quality of nightlife, cultural activities, job growth, and low cost of living. St. Louis is also a national hub for important biotechnology and plant science research, and is home to the renowned Forest Park, which borders the campus and includes many free attractions like the St. Louis Zoo, Missouri History Museum, St. Louis Art Museum, and the St. Louis Science Center.
NONDISCRIMINATION POLICY

Washington University encourages and gives full consideration to all applicants for admission, financial aid, and employment. The University does not discriminate in access to, treatment or employment in, its programs and activities on the basis of race, color, age, religion, sex, sexual orientation, gender identity, national origin, veteran status, disability, or genetic information. Inquiries about compliance should be addressed to the University’s Vice Chancellor for Human Resources, Washington University, Campus Box 1184, One Brookings Drive, St. Louis, MO 63130.
