Weston Career Center

Joint Degree Program

Business Administration and Computer Science

Informed by numbers, driven by principle.

The Business and Computer Science dual degree provides students an integrated educational experience with the Olin Business School and the McKelvey School of Engineering. The program aims to provide students with the fundamental knowledge and perspectives of both computer science and business to expose students to the unique opportunities created by combining these disciplines. This integration distinctively develops students to think holistically when using innovative technology to support and impact business strategies.
